Why AEG?

With our award winning Germanic design and build quality, AEG understand that the kitchen is increasingly becoming the heart of the home. Your kitchen appliances are essential tools that will be used for many years every day and so it is worth choosing a brand that will deliver you exceptional results in performance as well as looking stunning with its seamless design: hence perfect alignment in stainless steel and black glass is offered across the whole range.

OVENS
Our beautiful ovens feature an impressive XXL capacity. This means that we can offer you 5 shelves of completely even cooking and thanks to our ThermiC® hot air system, you can cook savoury and sweet at the same time with no transfer of flavour. For that all important Christmas feast, we tried and tested our ovens and you can comfortably cook a meal for 12 with all the trimmings!

Our impressive oven range offers you the latest options in innovation including our new SousVide oven, multifunction steam and pyrolytic ovens.

HOBs
AEG offer you stunning designs across all our hobs, with designer gas hobs, sleek ceramic and stunning induction hobs. Have you ever considered induction, the fastest growing hob technology, offering the ultimate in controllability and energy efficiency?

Induction is so easy to keep clean, plus we also offer you exciting cooking solutions with bridging functions, which facilitate sophisticated cooking with grill plates or fish kettles.

Fridges and Freezers
The ProFresh technology in our fridges ensures that your seasonal produce is kept in optimum condition for longer. Our extra tall built-in fridge freezers offer you maximum storage space meaning fewer trips to the shops.

Laundry
Whether in your kitchen or your utility room, our AEG laundry range offers you robust, well-built machines designed to treat your garments with the utmost care, with special programmes that offer the gentlest cleaning for your softest cashmeres and silk scarves.

Dishwashers
The unsung heroes of many kitchens, our AEG dishwashers offer you a greater internal capacity (10 litres more than the average) with outstanding cleaning performance thanks to our extra satellite spray arm, giving you sparkling results. For open plan living, our dishwashers have also been awarded the Quietmark award.
To achieve outstanding results, you don’t just need a passion for perfection, but highly advanced technology too. Discover for yourself how our hob and oven ranges open up all kinds of taste possibilities.

**COOKING**

### THERMIC® HOT AIR
Our exclusive ThermiC® hot air cooking technology ensures precise heat circulation and exact temperature control. The result is perfect cooking in every corner. On any shelf. In any position.

### BOTTOM HEAT
Oven is heated by the bottom element only. Foods are gently reheated, ideal for pies and pastries as it keeps the pastry crisp. This function is also ideal for plate warming.

### TOP HEAT
Oven is heated by top element only. Ideal for the shepherd’s pie, or lasagne that just requires gentle browning.

### MAXI TRAY
The largest fitted oven tray available. In real terms, that means 20% more cookies from a single bake. Naturally each one will be perfectly golden and crunchy.

### EXTRA LARGE CAPACITY
Our large XXL MaxiKlasse™ oven has more usable space which allows you to cook on all 5 levels simultaneously, which means you can bake 150 cookies at the same time.

### CORE TEMPERATURE SENSOR
Measures the precise cooking temperature inside the food, for perfect results every time.

### CATALYTIC TECHNOLOGY
Catalytic coatings to the top and sides of the oven absorb the grease from cooking and with regular heating to up to 500°C the grease residue is burned away.

### ANTI FINGERPRINT STAINLESS STEEL
Eliminates unsightly fingerprints from the appliance, for an effortless clean look.

### GRILL
Fully controllable powerful grill, ideal for family sized portions of food.

### FAST HEAT UP
No waiting for your oven to reach full heat, eliminating the need for preheating, great for those quick convenience meals.

### HALOGEN LAMPS
Halogen lamps provide optimum visibility of the cooking process inside, illuminating your dishes as they cook. This makes it easier to quickly check on how your dish is coming along.

### MAXIKLASSE™
The MaxiKlasse™ oven combines advanced features to ensure you can cook each dish evenly, and achieve the perfect colour and crust.

### FULL TASTE
Bake, steam and combine with precision to gently preserve foods natural flavours and juices.
Taking our steam oven technology to the next level

AEG is proud to introduce its new ProCombi SousVide oven, bringing professional cooking expertise to your home. The AEG sous vide method brings the precisely controlled and gentle steam bathing technique to your food with our highly intuitive multifunction steam oven; the result for you is unrivaled melt-in-the-mouth taste sensations. The marriage of our ProCombi SousVide oven with our specially designed built-in vacuum sealer drawer delivers the ultimate steam cooking system to revolutionise the way you cook.
SousVide in just four steps. Innovation every time.

Food cooked using the vacuum-sealed, lower temperature SousVide technique is tastier and healthier. You can cook nutrients under vacuum, then applying gentle steam heat to cook delicious dishes.

Vacuum Sealer
The AEG Vacuum Sealer is built-in to a drawer just below the oven, offering you a perfectly integrated SousVide cooking system.

Step 01
Clean, chop and season.

Step 02
Seal all the flavours in the vacuum bag using the AEG Vacuum Sealer.

Step 03
Place in the oven and select the SousVide function.

Step 04
Plate and Present
Ultimate explosion of taste is served.
The heart of every kitchen is the oven, where heat works its magic, turning raw ingredients into a wonderful meal.

As you challenge yourself and hone your cooking skills your oven must be infinitely adaptable, capable of exceedingly delicate adjustment, yet also be amazingly durable.

The starting point for our design brief is the use of very high grade materials. You won’t always see them, but you’ll know they’re there in the feeling of strength and balance, and the quiet, unruffled way an AEG oven does its work, year after year. It’s that high quality frame that enables our ovens to introduce outstanding technical features.

Visually, our built-in range of ovens from our Neue Kollektion have a sophisticated control panel within vertical lines, held by flowing horizontal lines: like an ‘H’ on its side. Whilst the interface is information-rich and extremely powerful in what it enables the user to do, its design is pure and simple: so using it never feels complicated. For example, the number of different materials is kept to a minimal two: glass and steel. The displays are red when lit, as on all appliances in the Neue Kollektion – so that there is just one key ‘accent’ colour throughout the kitchen.

**BS9354801M**

ProCombi plus sousvide oven.

**VS92903M**

Fully integrated sousvide vacuum sealer.

- Control the temperature and humidity on SousVide setting accurate to 1°C.
- The unique Humidity Sensor controls steam level in the cavity to ensure food is perfectly cooked everytime.
- ExSight® touch screen controls intuitively lets you navigate to any function or recipe you need.
- 100 Assisted Cooking Recipes takes the guesswork out of cooking.
- Multifunction oven lets you cook foods as you wish, together with steam options enabling you to create food that is golden brown on the outside and deliciously succulent on the inside.
- To help you reach perfection the core temperature sensor measures the precise cooking temperature deep inside the food.

Dimensions (HxWxD) in mm
594 x 594 x 567

- Vacuum sealer drawer allows you to achieve professional standard sous vide cooking.
- 100% vacuum packed food ensures heat and flavour transfer is at its highest.
- Vacuum cooked food keeps all the flavour juices and nutrients inside with only 5% weight loss in cooking process.
- Easily pre-prepare professional standard meals in advance.
- Sous vide cooking uses vacuum packed food and then gently steams at a very low temperature resulting in outstanding food texture every time.
- Flavours, spices and marinades are transferred instantly with vacuum packed food.

Built-In Microwaves

Our high-end Neue Kollektion microwave ovens provide a versatile range of cooking solutions in your kitchen. Flexibility is the key. You can microwave, grill, defrost and re-heat. And all this functionality can be used in any combination you desire.

The perfect partner for your oven, combine a microwave with your traditional oven for the definitive answer to your cooking needs. In addition to conventional cooking methods, you can gently heat liquids without using precious hob space, as well as speed up the cooking process by pre-cooking dishes or defrosting meat and fish.

Perfect results with automatic programming, whether you're defrosting, cooking or grilling your food, our new microwave ovens can be depended upon time after time. They're automatically programmed to deal with a range of different dishes and foods at the touch of a button. Simply select the food type, weight and the microwave does the rest.

The quick start control feature, enables you to cook for 30 seconds at full power at the touch of a single button, ideal for common tasks such as warming up drinks. Can be pressed up to 5 times continuously for convenience. All our microwaves are fully built-in so no additional building in kits are required. Selected models can be built under counter and all models can be built in column, offering flexibility to fit into your kitchen.

Induction Hobs

Induction technology is the fastest, safest and most energy-efficient way to cook on a hob, heating the pan directly with no pre-heating required. MaxiSense® induction hobs look stunning too, with their sleek, smooth designs – perfect for the most beautiful kitchens.

Nothing is faster, MaxiSense® induction is simply the quickest way to cook, capable of bringing a pan to the boil faster than a comparable gas or conventional electric hob.

Precision power, heat can be adjusted and controlled precisely with extreme sensitivity. It can be very powerful indeed, or just gentle enough to melt chocolate directly in the pan.

Extra safe, all AEG induction hobs feature automatic pan recognition. By sensing a pan’s shape and size, it ensures only the base is heated, leaving the surrounding area always safe to touch.

Simple to clean, spills and splashes can be easily wiped away with a damp cloth, no need for scrubbing or soaking as food will never get burnt on with induction.

HK854400FB
80cm Built-in maxisense induction hob.

HK604200IB
60cm Built-in induction hob.

- The MaxiSense® induction hob has self-sizing cooking zones. That means each zone detects the sizes and shapes of the pans you’re using and sends immediate heat to fit their bases exactly.
- With induction technology, no pre-heating is necessary to reach the desired temperature, so power is converted into heat as efficiently as possible.
- Our intelligent induction technology heats pans and the food in them, but nothing else. The surface round the pans stays cool. So if you accidentally touch the hob near the pans while you’re cooking, your fingers are safe.
- Our induction hob have sensitive touch controls that take you from cool to hot – and back – immediately, letting you make precise changes to make your dish perfectly delicious.
- Intense & fast heat up.
- This safety feature visually indicates when residual heat is left on the hob surface.
- If a cooking zone is left on, the power automatically cuts out after a set period of time.

COOLING

In today’s hectic world, who has time to go shopping for fresh food every day? But you can still eat fresh every day thanks to our ProFresh Plus range with TwinTech™ technology, to ensure your food remains fresher for longer – so your dishes look and taste better, every time.

MAXILOAD
Store more fresh and frozen food in our appliances due to MaxiLoad technology. We use advanced compressor and insulation technology to maximise internal storage space.

PROFRESH
Food stays fresher for longer with our ProFresh technology, ensuring that the fridge temperature is cold, stable and with the correct level of humidity.

COOLMATIC
Quickly chill large amounts of fresh food, such as the weekly shop, at the optimum storage temperature.

FROSTMATIC
Frostmatic - ideal for freezing fresh food quickly, preserving flavour, nutritional value and colour.

ENERGY EFFICIENCY
Our high performance models keep food fresher for longer with the smallest possible amount of energy, with models available in A+ energy rating.

LCD
Advanced LCD display with touch controls allows you to set features and temperatures precisely.

DYNAMIC AIR TECHNOLOGY
Keeps the temperature even throughout the whole refrigerator, which guarantees the safest storage for all your fresh food items.

TEMPERATURE ALARM
If the temperature rises too high a visible and audible alarm alerts you.

FROST FREE
Never defrost your freezer again. Frost free freezers also offer efficient and effective freezing with quicker, more even freezing for better food preservation.

TWINTECH
Two separate cooling systems for ideal hydration.
Cooling

Whether you’re buying a fridge for the first time or upgrading your existing fridge-freezer, AEG has the perfect appliance for your home.

Keep food as fresh and as nutritious as the day you bought it. Great tasting meals start with fresh, nutritious ingredients. Our range of fridge-freezers are designed with the latest cooling technology to keep food fresher for longer. This not only ensures that your food is full of flavour for that mid-week meal, but also means that you waste less food as it can be kept for longer.

All about space, cooking with fresh ingredients requires optimal storage space. We design cooling appliances that maximise the internal storage capacity thus enabling more food to be stored. Our salad drawers can hold up to 128 apples, and our fridge can hold enough food for 2 weeks worth of evening meals. This means that with busy lifestyles you can store more fresh ingredients and spend less time shopping.

S75210CMX0
540L French door fridge with digital control.

- Store more food and see what you’ve got at a glance. Open the French doors of our extra-large fridge for a panoramic view of all the fresh ingredients inside.
- The best ice-free technology available – you can be sure of a high-performing freezer that never requires defrosting.
- Control your fridge temperature with just the lightest touch using these advanced Touch Controls. Feedback can instantly be seen on the external control panel’s clear display.
- Keep your food fresher for longer with the two humidity controlled drawers.
- The professional anti-fingerprint stainless-steel finish of the door and handles aligns perfectly with any high-performance design kitchen.
- Automatically makes ice that is dispensed into the freezer drawer.

When reaching for that extra pan or large serving dish, a serious cook should never have to worry about whether the dishwasher will get it clean. That’s why ProClean™ capacity of up to 15 settings, with superior cleaning right to every corner, along with the best care for your most delicate glassware.
Why make do with a few basic pots and pans when there are so many wonderful possibilities for your batterie de cuisine? Our ProClean™ dishwashers are designed to take it all in their stride. They have a larger tub with an extra 10 litres of space, so it’s easier to find a place for even those strangely shaped odds and ends. Plus an innovative satellite spray arm, which whirs around reaching the nooks and crannies other dishwashers might miss, for impeccable cleaning whatever the load.

Efficiency You may have just a few dishes to clean, or a party’s worth. Most of our models have A+, A++ or above ratings for energy and efficiency, and they all give uncompromising performance, whatever the load. No fuss, no waste.

Automatic programme, it’s almost inevitable that each dishwasher load features a different combination of dishes and pans, which require a different intensity of cleaning. ProClean™ has an automatic programme that adjusts the temperature and the programme length depending on the soil level of your load, giving you the very best results for the minimum energy consumption.
FREESTANDING DISHCARE

F56302M0
Stainless steel 13 place setting advanced programmable dishwasher.

• With dedicated holders and a tray designed for flexibility, the racks and baskets in this dishwasher can be flexibly adjusted to make space for up to 13 place settings.
• With its AutoOff function, this dishwasher uses absolutely no energy in between cycles. It’s a breakthrough in energy consumption.
• Provides more flexibility as bigger items can be loaded in the lower basket by raising the upper basket on one side, even if the basket is loaded.
• With its Delay Start function, you can load it when you want to and program the start time according to your schedule. You can delay the start by up to 24 hours.
• Optimises the cleaning results of all-in-one detergents by ensuring that all the elements of the detergent are used in the correct phase of the cycle for perfect results.
• Enjoy less noise when your dishwasher is in operation. At 47dBA it runs as quiet as a conversation at home.
